VOL. 84, NOS. 1–2

MARCH 1997

Special Issue

Research on Forest Environmental Influences in a Changing World

<i>Publisher's note</i>	v
<i>Introduction</i>	xii
Establishment of a black cottonwood plantation on an exposed site in Iceland: plant growth and site energy balance Á.L. Aradóttir, H. Thorgeirsson, J.H. McCaughey, I.B. Strachan and A. Robertson	1
Diurnal water relations of beech (<i>Fagus Sylvatica</i> L.) trees in the mountains of Italy P. Kowalik, M. Borghetti, L. Borselli, F. Magnani, G. Sanesi and R. Tognetti	11
Twenty years of heat and water balance climatology at the Hartheim pine forest, Germany L. Jaeger and A. Kessler	25
A method for estimating unsaturated hydraulic properties of vertically heterogeneous soils from transient capillary pressure profiles K. Kosugi and Y. Nakayama	37
Soil morphology and soil water regime of loess soils under oak in the Meerdaal forest, Belgium S. Rampelberg, B. Van der Aa and J. Deckers	51
Water and energy balance of a forested Appalachian watershed S.J. Tajchman, H. Fu and J.N. Kochenderfer	61
Hydrological impacts of converting native forests and grasslands to pine plantations, South Island, New Zealand B. Fahey and R. Jackson	69
A water resources decision model for forest managers J.W. Hornbeck and R.B. Smith	83
Watershed management in the Dinder National Park, Sudan S.M. AbdelHameed, N.M. Awad, A.I. ElMoghaby, A.A. Hamid, S.H. Hamid and O. A. Osman	89
Choice of data scale: predicting resolution error in a regional evapotranspiration model P.A. Bresnahan and D.R. Miller	97
Temporal scaling of moisture and the forest–grassland boundary in western Canada E.H. Hogg	115
Regional impacts of climatic change on forests in the state of Brandenburg, Germany M. Lindner, H. Bugmann, P. Lasch, M. Flechsig and W. Cramer	123
Boreal forest carbon stocks and wood supply: past, present and future responses to changing climate, agriculture and species availability A.M. Solomon and R. Leemans	137
Forest plantations of the world: their extent, ecological attributes, and carbon storage J.K. Winjum and P.E. Schroeder	153
Raised levels of marine aerosol deposition owing to increased storm frequency; a cause of forest decline in southern Sweden? M.E.R. Gustafsson	169

Circular statistical analysis of birch colonization and the directional growth response of birch and black cottonwood in south Iceland Á.L. Aradóttir, A. Robertson and E. Moore	179
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

VOL. 84, NOS. 3-4

APRIL 1997

Research Papers

The effect of clumping and stomatal response on evaporation from sparsely vegetated shrublands A.J. Brenner and L.D. Incoll	187
Impact of tillage and residue management on soil heat flux R.H. Azooz, B. Lowery, T.C. Daniel and M.A. Arshad	207
Early prediction of spring wheat yields in Saskatchewan from current and historical weather data using the CERES-Wheat model A.C. Chipanshi, E.A. Ripley and R.G. Lawford.	223
Impacts of air temperature variations on the boro rice phenology in Bangladesh: implications for irrigation requirements R. Mahmood	233
Heat units to predict tomato harvest in the southeast USA K.B. Perry, Y. Wu, D.C. Sanders, J.T. Garrett, D.R. Decoteau, R.T. Nagata, R.J. Dufault, K.D. Batal, D.M. Granberry and W.J. McLaurin.	249
Application of geostatistics to evaluate partial weather station networks M. Ashraf, J.C. Loftis and K.G. Hubbard	255
Detecting leaf area and surface resistance during transition seasons R.K. Sakai, D.R. Fitzjarrald and K.E. Moore	273
Estimating sensible and latent heat fluxes from a temperate broad-leaved forest using the Simple Biosphere (SiB) model K. Schelde, F.M. Kelliher, W.J. Massman and K.H. Jensen	285

Book Review

The Climate Near The Ground.	297
